

You can control, what you can measure

We're making complex Product Life Cycle Screenings
available and doable for the industry.

We have created an easy-to-use, yet sophisticated and complex Climate Screening Tool for the furniture-, design- and Lighting-industry.

With our tool, the industry can now measure and improve the climate impact of their products.

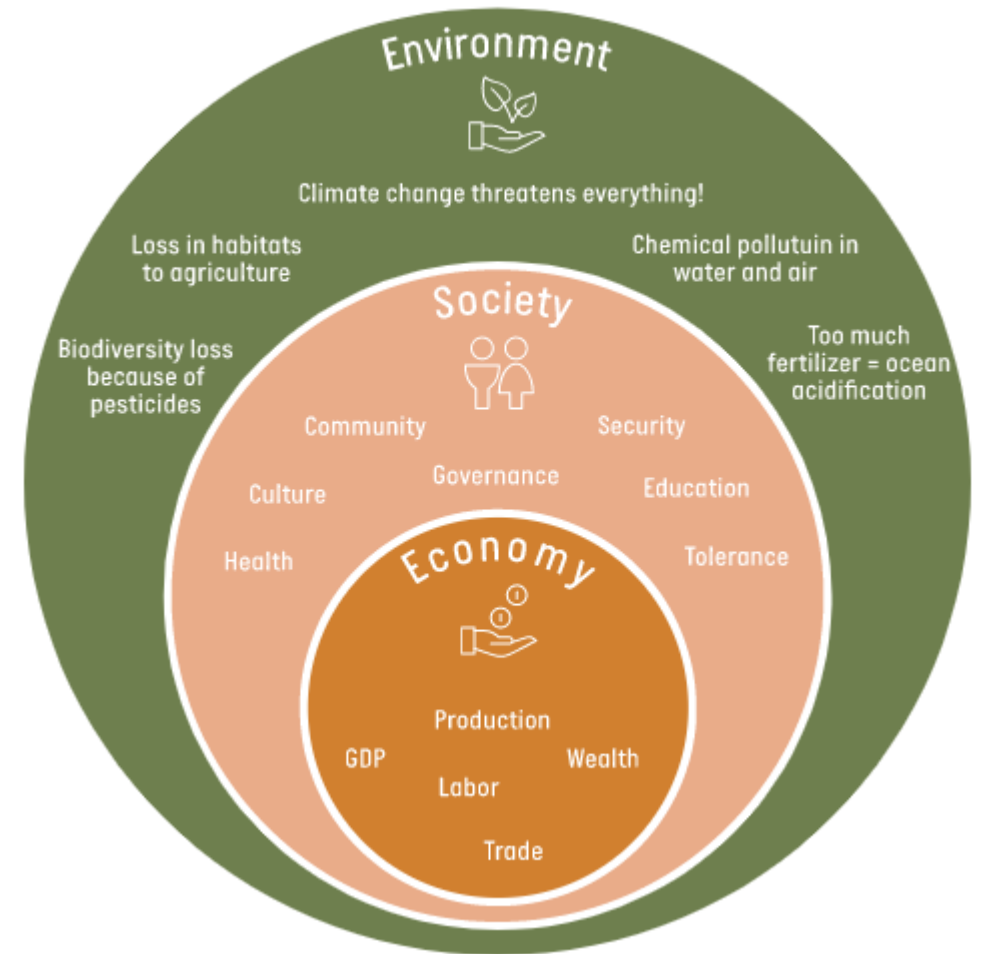

What and how?

- CO2e
- EU PEF
- EcolInvent
- 100s of LCA's
- 3 levels of accuracy

What's the impact for the industry?

- Report
- Reduce
- Control

How to apply?

- Combined with existing certifications
- Better decision-making
- Support transition of an industry

We can control,
what we can
measure
